Collated Responses of Questionnaire for Parents and Carers: Summer Term 2018

A total of **43** questionnaires were returned to school which represents just over half of those eligible to do so. If a row does not add up to 43 this is because a response was not given to a particular statement.

Many thanks to all those parents who took the time to complete the questionnaire sent out recently. As a school we are very pleased with the positive responses. **It is especially gratifying to see that all but two parents said they would recommend the school to another parent and no parents would not recommend it.** There were also many additional complimentary comments made which we will be displaying on our achievements board at some point.

Where parents have raised issues or concerns, those who have included their names have been contacted individually. Clearly anonymous respondents can't be contacted but I would urge anyone to get in touch if there are concerns; school is not able to address individual issues if we are not made aware of these.

*6: Two parents felt there is too much homework and one felt there is too little and it can be too repetitive.
